DBT Skills Training Handouts and Worksheets, Second

What is Dialectical Behavior Therapy? A Definition. Dialectical Behavior Therapy (DBT) is a type of cognitive behavioral therapy that focuses on the psychosocial aspects of therapy, emphasizing the importance of a collaborative relationship, support for the client, and the development of skills for dealing with highly emotional situations (Psych Central, 2016).

Intensive residential treatment services (IRTS) are time-limited mental health services provided in a residential setting. Recipients of IRTS are in need of structure and assistance from 24-hour mental health staff and at risk of significant functional deterioration if they do not receive these services.

Intensive Residential Treatment Services (IRTS)

This training provides an overview of harassment and discrimination in the workplace including the types of harassment, examples of how harassment manifests itself in the workplace, what to do if you feel you have been the victim of harassment, and what employees' responsibilities are in preventing workplace harassment and discrimination.

DWC - Online Training

Following a trauma, it's normal to experience flashbacks, feelings of disconnection or anxiety, and other uncomfortable symptoms. Managing emotions becomes increasingly difficult, and the mind may seem to be taken over by painful thoughts and feelings.
