The Foundation Level Syllabus forms the basis for the International Software Testing Qualification at the Foundation Level. The International Software Testing Qualifications Board (ISTQB) provides it to the national examination bodies for them to accredit the training providers and to derive examination questions in their local language.. Training providers will produce courseware and ...

Foundation Level Syllabus - ISTQB® International Software

Software testing is an investigation conducted to provide stakeholders with information about the quality of the software product or service under test. Software testing can also provide an objective, independent view of the software to allow the business to appreciate and understand the risks of software implementation.

Fig. 4 estimates the global aerospace MRO market is going to be around \$89 billion by 2023 (ICF International Analysis report, 2013). The MRO spend growth will be driven by the Asia-Pacific and Middle East sectors. The growth is mainly due to the significant increase expected in the commercial aircraft numbers.
