Statins, also known as HMG-CoA reductase inhibitors, are a class of lipid-lowering medications. Statins have been found to reduce cardiovascular disease and mortality in those who are at high risk of cardiovascular disease. The evidence is strong that statins are effective for treating cardiovascular disease in the early stages of the disease (secondary prevention) and in those at elevated risk ...

Answer: In a civil appeal, there is no right to free legal help or a lawyer who will work for you for free. There is a limited program by which pro bono appellate counsel may volunteer to assist litigants of modest means. A party may act as his or her own lawyer. If you do, however, you are expected to comply with the same rules that lawyers must follow.

Bacterial synthesis. A majority of bacteria that normally colonize the small and large intestine synthesize biotin. Whether the biotin is released and absorbed by humans in meaningful amounts remains unknown. The uptake of free biotin into intestinal cells via the human sodium-dependent multivitamin transporter (hSMVT) has been identified in cultured cells derived from the lining of the small ...
