In microeconomics and management, vertical integration is an arrangement in which the supply chain of a company is owned by that company. Usually each member of the supply chain produces a different product or (market-specific) service, and the products combine to satisfy a common need. It is contrasted with horizontal integration, wherein a company produces several items which are related to ...

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

In For a New Liberty: The Libertarian Manifesto, Rothbard proposes a once-and-for-all escape from the two major political parties, the ideologies they embrace, and their central plans for using state power against people. Libertarianism is Rothbard's radical alternative that says state power is unworkable and immoral and ought to be curbed and finally abolished.
