

modern european military fortifications pdf

A fortification is a military construction or building designed for the defense of territories in warfare, and is also used to solidify rule in a region during peacetime. The term is derived from the Latin fortis ("strong") and facere ("to make"). From very early history to modern times, walls have often been necessary for cities to survive in an ever-changing world of invasion and conquest.

Fortification - Wikipedia

Military technology is the application of technology for use in warfare. It comprises the kinds of technology that are distinctly military in nature and not civilian in application, usually because they lack useful or legal civilian applications, or are dangerous to use without appropriate military training. Military technology is often researched and developed by scientists and engineers ...
