By Susan Rankin and Genevieve Weber. Perhaps nowhere is the expression "the only constant is change" more evident than in higher education. The experiences of college students, including student-athletes, are ever changing, which means that faculty, staff, coaches and administrators have to recognize and act on these changes or they will quickly find themselves left behind.

Alcoholism, also known as alcohol use disorder (AUD), is a broad term for any drinking of alcohol that results in mental or physical health problems. The disorder was previously divided into two types: alcohol abuse and alcohol dependence. In a medical context, alcoholism is said to exist when two or more of the following conditions are present: a person drinks large amounts over a long time ...
