Pressure swing adsorption (PSA) is a technology used to separate some gas species from a mixture of gases under pressure according to the species' molecular characteristics and affinity for an adsorbent material. It operates at near-ambient temperatures and differs significantly from cryogenic distillation techniques of gas separation. Specific adsorbent materials (e.g., zeolites, activated ...

A conference committee is a committee of the United States Congress appointed by the House of Representatives and Senate to resolve disagreements on a particular bill. A conference committee is usually composed of senior Members of the standing committees of each House that originally considered the legislation.. The use of the conference committee process has steadily declined in recent decades.

What is prostate cancer? Prostate cancer occurs when abnormal cells develop in the prostate. These abnormal cells can continue to multiply in an uncontrolled way and sometimes spread outside the prostate into nearby or distant parts of the body.

### **What you need to know about prostate cancer | PCFA**

Most prostate cancers are first found during screening with a prostate-specific antigen (PSA) blood test or a digital rectal exam (DRE). (See Prostate Cancer Prevention and Early Detection.) Early prostate cancers usually don't cause symptoms, but more advanced cancers are sometimes first found because of symptoms they cause.
